TRACTION

TRAIL SPORT

Fast. Smooth. And massively fun. The all-new Devinci Kobain is all of the above packed into a deft hardtail with a plus-size footprint for superior stability and traction. Powered by Optimum G04 (6066 T6) aluminum, frames feature internal cable routing and a geometry tuned for superior handling on technical terrain. Thru axles—front and back—are stronger and stiffer for bolstered response, while additional features include ample tire clear-

ance at both 3.25 (27.5) and 2.35 (29) configurations. Whether lapping singletrack or riffing on a jumble jumps, berms and flowing features, the Kobain is a superstar entertainer that just plain rips.

***The perfect fit**

Please note that only Devinci authorized retailers are able to advise you properly on the correct bike size. Please visit your nearest store so they can analyze your needs. In the case of internet shopping, it is equally important to provide the necessary measurements (e.g. inseam length) so that the retailer can give you the correct information.
