GRAN FONDO

ROAD RACE

TRIATHLON

The road is our ultimate escape route. And via high-output carbon bikes, the journey is elevated with superior handling, limitless power, and ultra-clean aesthetics. Enter Devinci's Leo and Leo SL series road bikes, featuring Dual Core Fusion frame tech that fuses two cores for a trifecta of speed, stability, and intuitive response. DMC-R carbon frames—with EPS Molding—combine featherweight feel with vertical compliance thanks to a frame that's fine-tuned for improved dampening. In addition, direct mount disc brakes improve

stopping power across all road conditions. And rider-appreciated architecture includes lightweight forks, carbon dropouts, acceleration-juiced BB86 bottom brackets, thru-axles (front and back), and aerodynamic tubing with internal cable routing. From Gran Fondo fortitude to tackling steep routes and high-mileage pursuits, embrace the road ahead with meticulous style meets ramped-up performance.

*The perfect fit

Please note that only Devinci authorized retailers are able to advise you properly on the correct bike size. Please visit your nearest store so they can analyze your needs. In the case of internet shopping, it is equally important to provide the necessary measurements (e.g. inseam length) so that the retailer can give you the correct information.
