CONTROL ALT UNBEATABLE

E-GRIFFIN

SHIMANO
STEPS

The one-size-fits-all Griffin is Devinci's family-friendly e-bike powered by Shimano's intuitive STEPS system. Inspired by global bike share programs like those in New York, Montreal, and London, Griffins are hardwired to explore while using less energy in the process. A superior long-distance commuter or an everyday ally for weekend excursions with family and friends, these lightweight bikes are agile, maneuverable, and have disc brakes for determined stopping power. Addi-

tional features include internal cable routing for effortless transport and protection from elements; fenders and a rear rack to hold the rechargeable lithium-ion battery; and the appreciated ability to travel more than 125 kilometres in eco-mode.

Please note that only Devinci authorized retailers are able to advise you properly on the correct bike size. Please visit your nearest store so they can analyze your needs. In the case of internet shopping, it is equally important to provide the necessary measurements (e.g. inseam length) so that the retailer can give you the correct information.
